

## DATAJAM PASOS LIBRES 2021

It is an international technological competition against modern slavery created by Pasos Libres and IBM in 2018. This year **the competition seeks to develop solutions to improve, scale and expand existing tech tools to combat forced labour in the supply chains.**

## Who can participate?

Teams of **students**, **professionals** and **organizations** with knowledge in developing data-driven solutions to solve global issues and interested in learning and strengthening their understanding of forced labour in supply chains.

## What are the prizes?

- 1<sup>st</sup>** \$1.000 (USD) in cash plus  
1-year Platzi Expert Plans
- 2<sup>nd</sup>** Planes Platzi Expert por 1 year  
for each team member
- 3<sup>rd</sup>** Planes Platzi Expert por 1 year  
for each team member

All participants will obtain a certificate of participation.

# Challenge

Develop solutions to **improve, scale, or expand existing tech tools** to combat forced labour in the supply chains of raw materials.

## Track 1

Risk Level Assessment

## Track 2

Grievance Mechanisms
